Hello fellow competitor,

Thank you for nominating for the 2024 National Lever Action Championships.

I would like to take this opportunity to acquaint you with some important information for when you visit the SSAA (Qld) Hervey Range Shooting Complex operated by SSAA Townsville Branch Inc.

Firstly, firearms safety is seen as the responsibility of every person and thus I have attached a copy of our Range Standing Orders so you may familiarise yourself with them.

However, some items I wish to highlight are:

- Immediately on arrival to the firing line at the start of the shooting day, please identify yourself to the Range Officer and sign-on showing your firearms licence and SSAA membership card.
- When bringing your firearms onto the range, they must be in a case or bag and must be cleared by a Range Officer on the firing line before being placed on a gun rack.
- There is to be no handling of firearms whilst the range is closed to shooting and people are forward of the firing line.

I also wish to advise that empty chamber indicators (ECI) have been made mandatory for use on all SSAA Qld ranges. Thus an ECI will need to be inserted in your firearm when it is removed from your case or bag and be in the chamber at all times other than when the firearm is under your control on the firing line. ECI's are available from the range officer for \$2 each.

Looking forward to seeing you in September,

Kind regards

J. Mayne
President
